

ORACLE SUPPLY CHAIN MANAGEMENT Rapid Deployment Package

- Deploy Oracle's Supply Chain Management Analytics Business Intelligence Application in as little as five weeks with a fixed price and scope
- Use live data from your ERP, CRM, and financial source systems
- Have a fully deployed SCM Analytics Application with up to 5 reports and one dashboard with limited customization and branding
- Leverage Versa Shore expertise to deploy OBIEE Apps and provide knowledge transfer

VERSA SHORE METHODOLOGY

Versa Shore's framework for an Oracle Business Intelligence Application deployment employs a time-tested, iterative, top-down approach that allows our clients to quickly leverage their technology investments and reap the benefits of having actionable business information at their fingertips. The Oracle Supply Chain Management Rapid Deployment Package is a value-based package that allows our clients to take advantage of Versa Shore's expertise and unique project management methodology across multiple business intelligence implementations to date for a fixed fee.

THIS PACKAGE INCLUDES

- Installing and configuring the Oracle Business Intelligence Apps Platform
- Connecting to a single data warehouse that includes up to fifteen tables from a star or snowflake schema
- Building a metadata model to support identified dashboard and report requirements
- Deploying of a minimum of five reports and one dashboard
- Hands-on learning with knowledge transfer as appropriate

THE VERSA SHORE DIFFERENCE

At Versa Shore, we're dedicated to helping you derive tangible business value from your technology tools. We are a leading global technology consulting firm with deep business intelligence expertise dating back to the inception of BI tools.

We work with Fortune 1000 companies across many industries, including Financial Services, High Tech, Pharmaceuticals, Consumer Electronics and Telecommunications, delivering world-class solutions based around Oracle's business intelligence, data warehousing and performance management tools.

We are also an authorized Oracle software reseller and provide top-notch resources for IT staff augmentation on nearly every technology available in today's IT landscape.

Quite simply, our focus is on you. We put ourselves in the shoes of our clients, roll up our sleeves and help solve technology challenges. As trusted advisors, we use the best resources, the best industry practices and the best methodologies to help our clients quickly and economically maximize their technology investments. We are a group of pedigreed, technically savvy and extremely responsive professionals who are reputed for driving exceptional business value.

ABOUT VERSA SHORE

Versa Shore is an Oracle Gold Partner specialized in Business Intelligence. From the inception of formalized BI tools to the latest software innovations, we're always on the forefront of BI technology. As a result, we are the experts in transforming your most precious business asset – your data into actionable information.

Our highly skilled and pedigreed staff has a strong background in data warehousing, best practices with industry leading BI technologies and prior experience with the Siebel, Hyperion and Oracle ecosystems. We use a time-tested, proprietary industry-leading implementation methodology that delivers business value quickly while maximizing technology investments.

Armed with a superior track record and sparkling references, Versa Shore has unmatched expertise in creating and optimizing BI ecosystems so that you can strategically leverage your data to accelerate your most challenging business goals.

"For the past 10 months, Versa Shore has shown expert level OBIEE knowledge and has led the Cisco CA-Entitlement team's implementation. Versa Shore continues to lead our implementation with more enhancements and increased data size. Their expertise has made our project one of the FEW within Cisco to be on time, on budget and on our fifth release. We are now expanding our rollout and Versa Shore has been asked to act as an architect for future implementations."
